This photo index does not include the photos which appeared in the papers. They are indexed with the regular index.

Due to reformatting some pages changed before final printing. I've tried to make sure the index is correct, but I'm sure there are mistakes. If you don't find the name you are looking for on the correct page try the following page.

Also, please be aware that the papers spelled names incorrectly. I know this, but in most cases did not attempt to change them. Some were so obvious, and were spelled two or three different ways in the same article, so those were changed.

If you are researching a family in Montgomery or Polk county we offer paid research, with the profits going to our old Norman High School renovation project. You can write us, call, or visit our web site.
